

Serial No.: 10/616,439 AMENDMENT TO SPECIFICATION

Art Unit: 3635

On page 14, please further amend the first full paragraph (mid-page) thereon as follows:

The central support wall 36 has a distal or lowermost edge 44 which extends beyond the distalmost edge 32 of the distalmost edge 26 of the first sidewall 24, as best shown in figure 2. A relatively narrow gap or open band 46 is longitudinally disposed between the central support wall 36 and the distalmost edge 26 and flange 28 of the first sidewall 24. A second sidewall 30 extends opposite to the central wall 36 from said first sidewall 24, with an elongated gap 46 therebetween, as best shown in figure 2.
